Editorial Board

Editorial Board members work together by consensus to provide IJICC with editorial direction in the following areas: Identify scope of journal content and, when appropriate, themes for various issues. Determining Criteria for accepting manuscripts for publication consideration. Developing criteria and guidelines for reviewers to use in reviewing each type of manuscript. Developing criteria and guidelines for authors to use in creating each type of manuscript. Reviewing manuscripts as needed and appropriate. Soliciting manuscripts from potential authors. Promoting IJICC to potential authors, readers and indexers.

Pdf **Developing Students' Science Process Skills in the Learning of Electricity**
Hantje Ponto^{1(*)}, **Nontje Merie Sangi**¹, **Christine Takarita Meitty Manopo**¹, ¹Department of Electrical Engineering Education, Universitas Negeri Manado, Minahasa 95618, North Sulawesi, Indonesia. Email: hantjeponto@unima.ac.id

The science process skill (SPS) is one of the skills needed by humans to face the challenges of the industrial revolution 4.0 in the 21st century. Students who have an SPS are able to understand scientific concepts including basic and complex basic electric circuits (BEC). The research objective is to develop students SPS by using teaching discovery learning methods (TDLM) and their impact on student learning outcomes of BEC (OLBEC). The research method is quasi-experiment. Participants in this research are 72 students consisting of an experimental group using the TDLM model and the control are 36 students. The research data is analysed by using the Manova statistics. The research finding obtained that students SPS and OLBEC who followed the TDLM approach are higher than students who take CTM. Culinary and shopping experiences are anticipated as attractions for tourists in visiting a destination in Indonesia. Culinary arts not only can increase the value of a destination but also increases the value of the food itself because generally, the local identity of a region is defined by the place and what special food it has. The purpose of this study is to discover the potentials and formulate suitable strategies for Bandung as a heritage and creative city to be developed as a sustainable gastronomic and shopping tourism destination. The study uses a qualitative approach. The data collection method is gathered through an FGD consisting of 23 participants from various stakeholders in the Bandung tourism sector. The findings stated that Bandung city is ready to implement the development of culinary activities directed at developing sustainable tourism destinations, seen from the aspect of potential diversification and value of culinary shopping products. However, there are specific issues that need to be improved to develop its potential, especially in the area of sustainability. Pages 1153 to 1163

Pdf The Effects of Perceived Usefulness, Perceived Ease of Use, Perceived Security and Risk-Free on the Customer Decision to Borrow Using P2P Lending

Florentina Kurniasari^a, Prio Utomo^b, ^{a,b}Technology Management Department, Universitas Multimedia Nusantara, Indonesia, Email: ^aflorentina@umn.ac.id, ^bprio.utomo@umn.ac.id

The advance of technology development today brings innovation in the financial industries. Financial technology continues to emerge in the sectors of payment, investment, and loans online and as we are familiar with the term, P2P Lending. The purpose of this research is to analyse the effect of perceived usefulness, perceived ease of use, and perceived risk-free and security in customer borrowing decisions on the P2P lending platform, using the Technology Acceptance Model approach. As quantitative research, the study distributed questionnaires to 166 respondents of ultra-micro segments, domiciled in East Java province. The data collection was further processed statistically using the Structural Equation Method (SEM). The study showed that the customer decision to borrow is significantly influenced by the trust variable, in which perceived ease of use had the most significant influence in creating the borrower's trust. Pdf The Role of Monetary Policy for Supporting Foreign Direct Investment Inflows in Indonesia (Evidence from 2000.1-2019.1)

Sri Murwani^a, Agus Sriyanto^b, Nur Indah Lestari^c, ^{a,b,c}Politeknik Keuangan Negara STAN, Tangerang Selatan 15222, Indonesia, Email: ^aagus.sriyanto@pknstan.ac.id

This research explored the condition of foreign direct investment in Indonesia. The contribution is still relatively low to the growth rate of the Indonesian economy. With the Taylor Rule model, the analysis of monetary policy was done to decide the choice of policy which one was the right one relating to increasing the role of foreign investment. Based on impulse response and variance decomposition analysis, we found that the fluctuation of interest rate has the most influence on foreign investment besides inflation rate, exchange rate, and FDI itself. Such that, the interest rule which decides the targeted interest rate as the final target policy, is the most favourable policy that supports the role of Foreign Direct Investment in Indonesia.
